

FOX STUDIOS BAJA
IMPORTING TOOLS & SUPPLIES FOR THE PURPOSE OF SERVICING
EQUIPMENT

A vendor who has imported equipment to Baja Studios for use on a production may send a service truck into Mexico without having to pro-forma every tool and item contained in the truck or a segregate temporary and definite imports. A letter must be written to the Mexican Customs Administrator, submitted through your broker, on company letterhead requesting permission for the service truck to enter Mexico. The truck would still cross through Otay Mesa but would not be subject to formal entry procedures.
